this is a bad deal . it is lasted with fraud from land purchases-
Redevelopment funds - no multi bids - no multi engineering plans - a bridge
to hand pipes on which is scheduled for destruction .. If you give money
to this project you and this money will be litigation until the end of time
.. It is a pack of lies -- no place for plant - plant outside of
district -- failing infrastructure water system -gas when and if they
dig it will be a house of card giant redwood stumps under ground road
that are substandard GO AHEAD WASTE THE MONEY
